# Informal meeting between Summer school attendees and space operators

Florent Deleflie\*<sup>1</sup>

<sup>1</sup>Institut de Mécanique Céleste et de Calcul des Ephémérides (IMCCE) – CNRS, Observatoire de Paris  
– 77 Avenue Denfert Rochereau 75014 PARIS, France

## Résumé

This session will be devoted to a general and informal discussion about the opportunities to work in the fields related to space debris. A couple of academic researchers (the ones giving the lectures), and some members of companies or space agencies collaborating with IMCCE will be there session to share their experience with the school attendees.
